

cAdvice Inc. is a Tampa Bay based CAD Management & Consulting company, assisting in a wide spectrum of engineering and design projects ranging from all phases of construction including visualizations, design plus engineering and construction documents.

---

Mr. Siggie Brocks, owner and president of cAdvice Inc., graduated with a degree in engineering and architecture from the German based school “University of Applied Science Dortmund” in 1999. He has since accumulated over 17 years of architectural experience by working for various firms including 3L Architects in Menden, Germany, which made him especially familiar with residential and commercial architectural projects in metric or imperial systems.

In 2000 he joined Carruthers & Associates Architects in Tampa, Florida as an Architectural Designer, managing the CAD design process for schools in Hillsborough County. With his extensive CAD Management knowledge, he then accepted a teaching position at Erwin Technical Center in Tampa, FL in 2006, educating students in Advanced Computer Aided Drafting and Design.

While still continuing to teach, he realized he could fill a void in designing 2D and 3D CAD systems and founded cAdvice Inc. in 2009, combining his experience, creativity, and ingenuity in a variety of architectural and engineering projects. A select number of these are mentioned below:

- **Kelly Taaffe Design Inc. Tampa, FL**      **(Interior Design)**  
Clearwater St. Petersburg Airport      Interior Design and Construction Documents, all phases.  
Jacksonville International Airport      Interior Design and Construction Documents, all phases.
- **Abode Builders Inc. St. Petersburg, FL**      **(Builder)**  
The Herman Residence, Gulfport FL      ADA compliant conversion, permit for elevator.
- **Design Specifying Tampa, FL**      **(Interior and Exterior Design)**  
Waterfront Residence, Boca Ciega, FL      Remodeling; Kitchen, Living and Pool Bar.
- **Pinet Design Tampa, FL**      **(Architect)**  
The Oken Residence, Tampa, FL      Contemporary Residence on the Hillsborough River.
- **Team Gezelman P.E., Tampa, FL**      **(Solar Energy Systems, Mechanical Designs)**  
Solar Energy Installations      Over 100 permits nationally and internationally, IE:  
Marché en Fer, Port au Prince, Haiti      Design & Permit; 105 KW Photovoltaic System .  
Embry Riddle Aeronautical University      Design & Permit; Commercial Solar Water Heating System.  
The Environmental Learning Center      Design & Permit; 10 KW Photovoltaic System.  
National Conversation Training Ctr., VA      Solar Study and Construction Documents
- **Toizer Engineering Inc. Tampa, FL**      **(Solar Energy Systems, Electrical Designs)**  
University of Central Florida      Bid Package for the Florida 10kw Solar System Initiative.
- **Level Design Tampa, FL**      **(Exterior Design and Landscaping)**  
Various Residences in South Tampa      Design and permit of upscale exterior Structures, Pools, Decks,  
Gazebos and Landscaping.
